PROFESSIONAL SUMMARY

Mechanical Engineering graduate with specialized training in MEP and HVAC systems. Skilled in heat load calculations, duct design, and piping layouts for residential and commercial projects. Proficient in BIM modelling using Revit MEP and experienced in preparing BOQ and quantity take-offs. Committed to delivering energy-efficient solutions and ensuring compliance with international standards such as ASHRAE.

EDUCATION

Diploma in MEP Engineering (HVAC, Electrical & Plumbing)
Axions Institute, Kozhikode, Kerala | Year of Completion: 2026

Bachelor of Technology in Mechanical Engineering
KMCT College of Engineering, Kozhikode, Kerala | Year of Completion: 2018

TECHNICAL SKILLS

- Revit MEP (BIM Modelling, Families, Schedules)
- AutoCAD for MEP Drafting
- HVAC Design (Heat Load Calculation, Duct Design, AHU/FCU Layout)
- Plumbing System Design
- Fire Protection System Modelling
- BOQ Preparation & Quantity Take-Of

PROJECTS

- **HVAC Design for Commercial Building (Training Project)**
  - Performed heat load calculation using ASHRAE standards
  - Designed duct layout and diffuser placement
  - Created 3D HVAC model using Revit MEP
- **Residential Plumbing System Design**
  - Designed water supply and drainage layout
  - BOQ Preparation & Quantity Take-Off

SOFTWARE

- Revit MEP
- AutoCAD
- Microsoft Excel
